FORTY YEARS OF INNOVATION

Elevator Interiors Simplified

SnapCab® is the elevator industry leader in easy-to-install, high-quality elevator interior systems tailored to fit any cab size and style. Driven by how we can be useful to our customers, we provide superior service and effective solutions.

OUR BEGINNINGS

From Fine Carpentry to Elevator Remodeling

SnapCab's journey began in 1983, when Founder Glenn Bostock launched his fine woodworking business. His commitment to high-quality craftsmanship soon led him to the elevator remodeling industry, where he encountered the challenges of traditional installation methods. Driven by a desire to improve the process, Glenn invented a solution that revolutionized the industry.

Revolutionizing the Industry

In 1995, SnapCab revolutionized the industry by inventing and patenting the Interlocking Panel System (ILP), making elevator interior installations faster, easier, and more reliable. This innovation set a new industry standard, solidifying SnapCab as a leader in elevator interior systems that are both aesthetically pleasing and highly functional.

INDOOR AIR QUALITY

Indoor air quality (IAQ) is a critical factor in building design and operation. Poor IAQ can lead to health problems, reduced productivity, and increased absenteeism. SnapCab elevators are designed with advanced ventilation systems to ensure fresh air circulation and optimal IAQ. The system includes high-efficiency filters and a controlled airflow mechanism that draws in fresh air from the building's exterior and distributes it throughout the elevator shaft and car. This process helps to reduce the concentration of pollutants, odors, and allergens, creating a healthier and more comfortable environment for passengers. SnapCab's commitment to IAQ is a testament to its dedication to providing a modern, safe, and sustainable building solution.

MODERNIZE YOUR BUILDING

SnapCab elevator interiors not only enhance your building's aesthetic but are also built to last. With quick installation and minimal downtime, you can transform your space without disrupting daily operations.

INDUSTRY TRUSTED

High Quality

SnapCab elevator interiors are known for their exceptional quality and durability. Our patented interlocking paneling system, combined with optimal materials, ensures that our products can last for decades. Every SnapCab product undergoes rigorous E84 fire testing and meets all code and LEED compliance standards, demonstrating our unwavering commitment to safety and environmental responsibility. We continuously invest in the safety and quality of our products, guaranteeing that every SnapCab elevator interior not only meets but exceeds industry standards.

COMMITTED TO OUR CUSTOMERS

By collaborating with and serving the world's largest and most trusted elevator brands, our commitment to quality and innovation has fostered our trusted reputation.

HERE TO SERVE YOU

Elevator Interiors Simplified

Creating the perfect interior can be overwhelming. SnapCab provides expert support to help you design the ideal interior for any building.

- ✓ **Industry-leading 3-year warranty**
- ✓ **Sustainability/LEED**
- ✓ **High-quality**
- ✓ **Quick to install, minimizing downtime**
- ✓ **Easily choose a design with pre-built model configurations**
- ✓ **High-Quality Images & Renderings**
- ✓ **Cab Design Tool to build your own interior design**
- ✓ **Free Design Sessions**
- ✓ **Materials are tested in their end-use configuration**
- ✓ **Code compliant**

Flexible Design

Our elevator interiors can be personalized and updated at any time. Simply swap out panels to update colors, materials, and designs.

Our panels accommodate any material up to a quarter of an inch in depth, allowing for endless customization possibilities. With our online design tool, customers can visualize their cab interiors in real-time, experimenting with different finishes, ceilings, and handrails. Personalizing and updating your elevator interior has never been easier.

Personalized Design Sessions

SnapCab's virtual design sessions provide an opportunity for you and a SnapCab Elevator Interior Specialist to collaborate on a design and see the results immediately.

- ✓ **Leverage Decades of Expertise:** Benefit from over forty years of experience to determine the specific needs for your elevator interior, whether it's durability for high-traffic areas, elegance for Class A space, or other requirements. We are here to direct you to the perfect solution.
- ✓ **Explore Your Vision:** Explore and refine your vision for the elevator interior, ensuring the final design aligns with your goals and preference.
- ✓ **Real-Time Design Collaboration:** Work with a specialist who will help you design in real-time using 3D design software, making it easy to visualize and make adjustments on the spot.
- ✓ **Receive Tailored Renderings:** Obtain realistic high-resolution renderings of your design, providing a clear and detailed preview of what your elevator interior will look like.

FREE DESIGN SESSIONS

Commitment to a Greener Future

At SnapCab, sustainability isn't just a term we use; it's a core value that guides all our activities. By embracing Lean Manufacturing and achieving rigorous environmental certifications, we ensure our products are both innovative and sustainable. We use responsibly sourced materials, and low-emission adhesives to minimize our environmental impact. Learn more about how SnapCab is committed to driving sustainable progress.

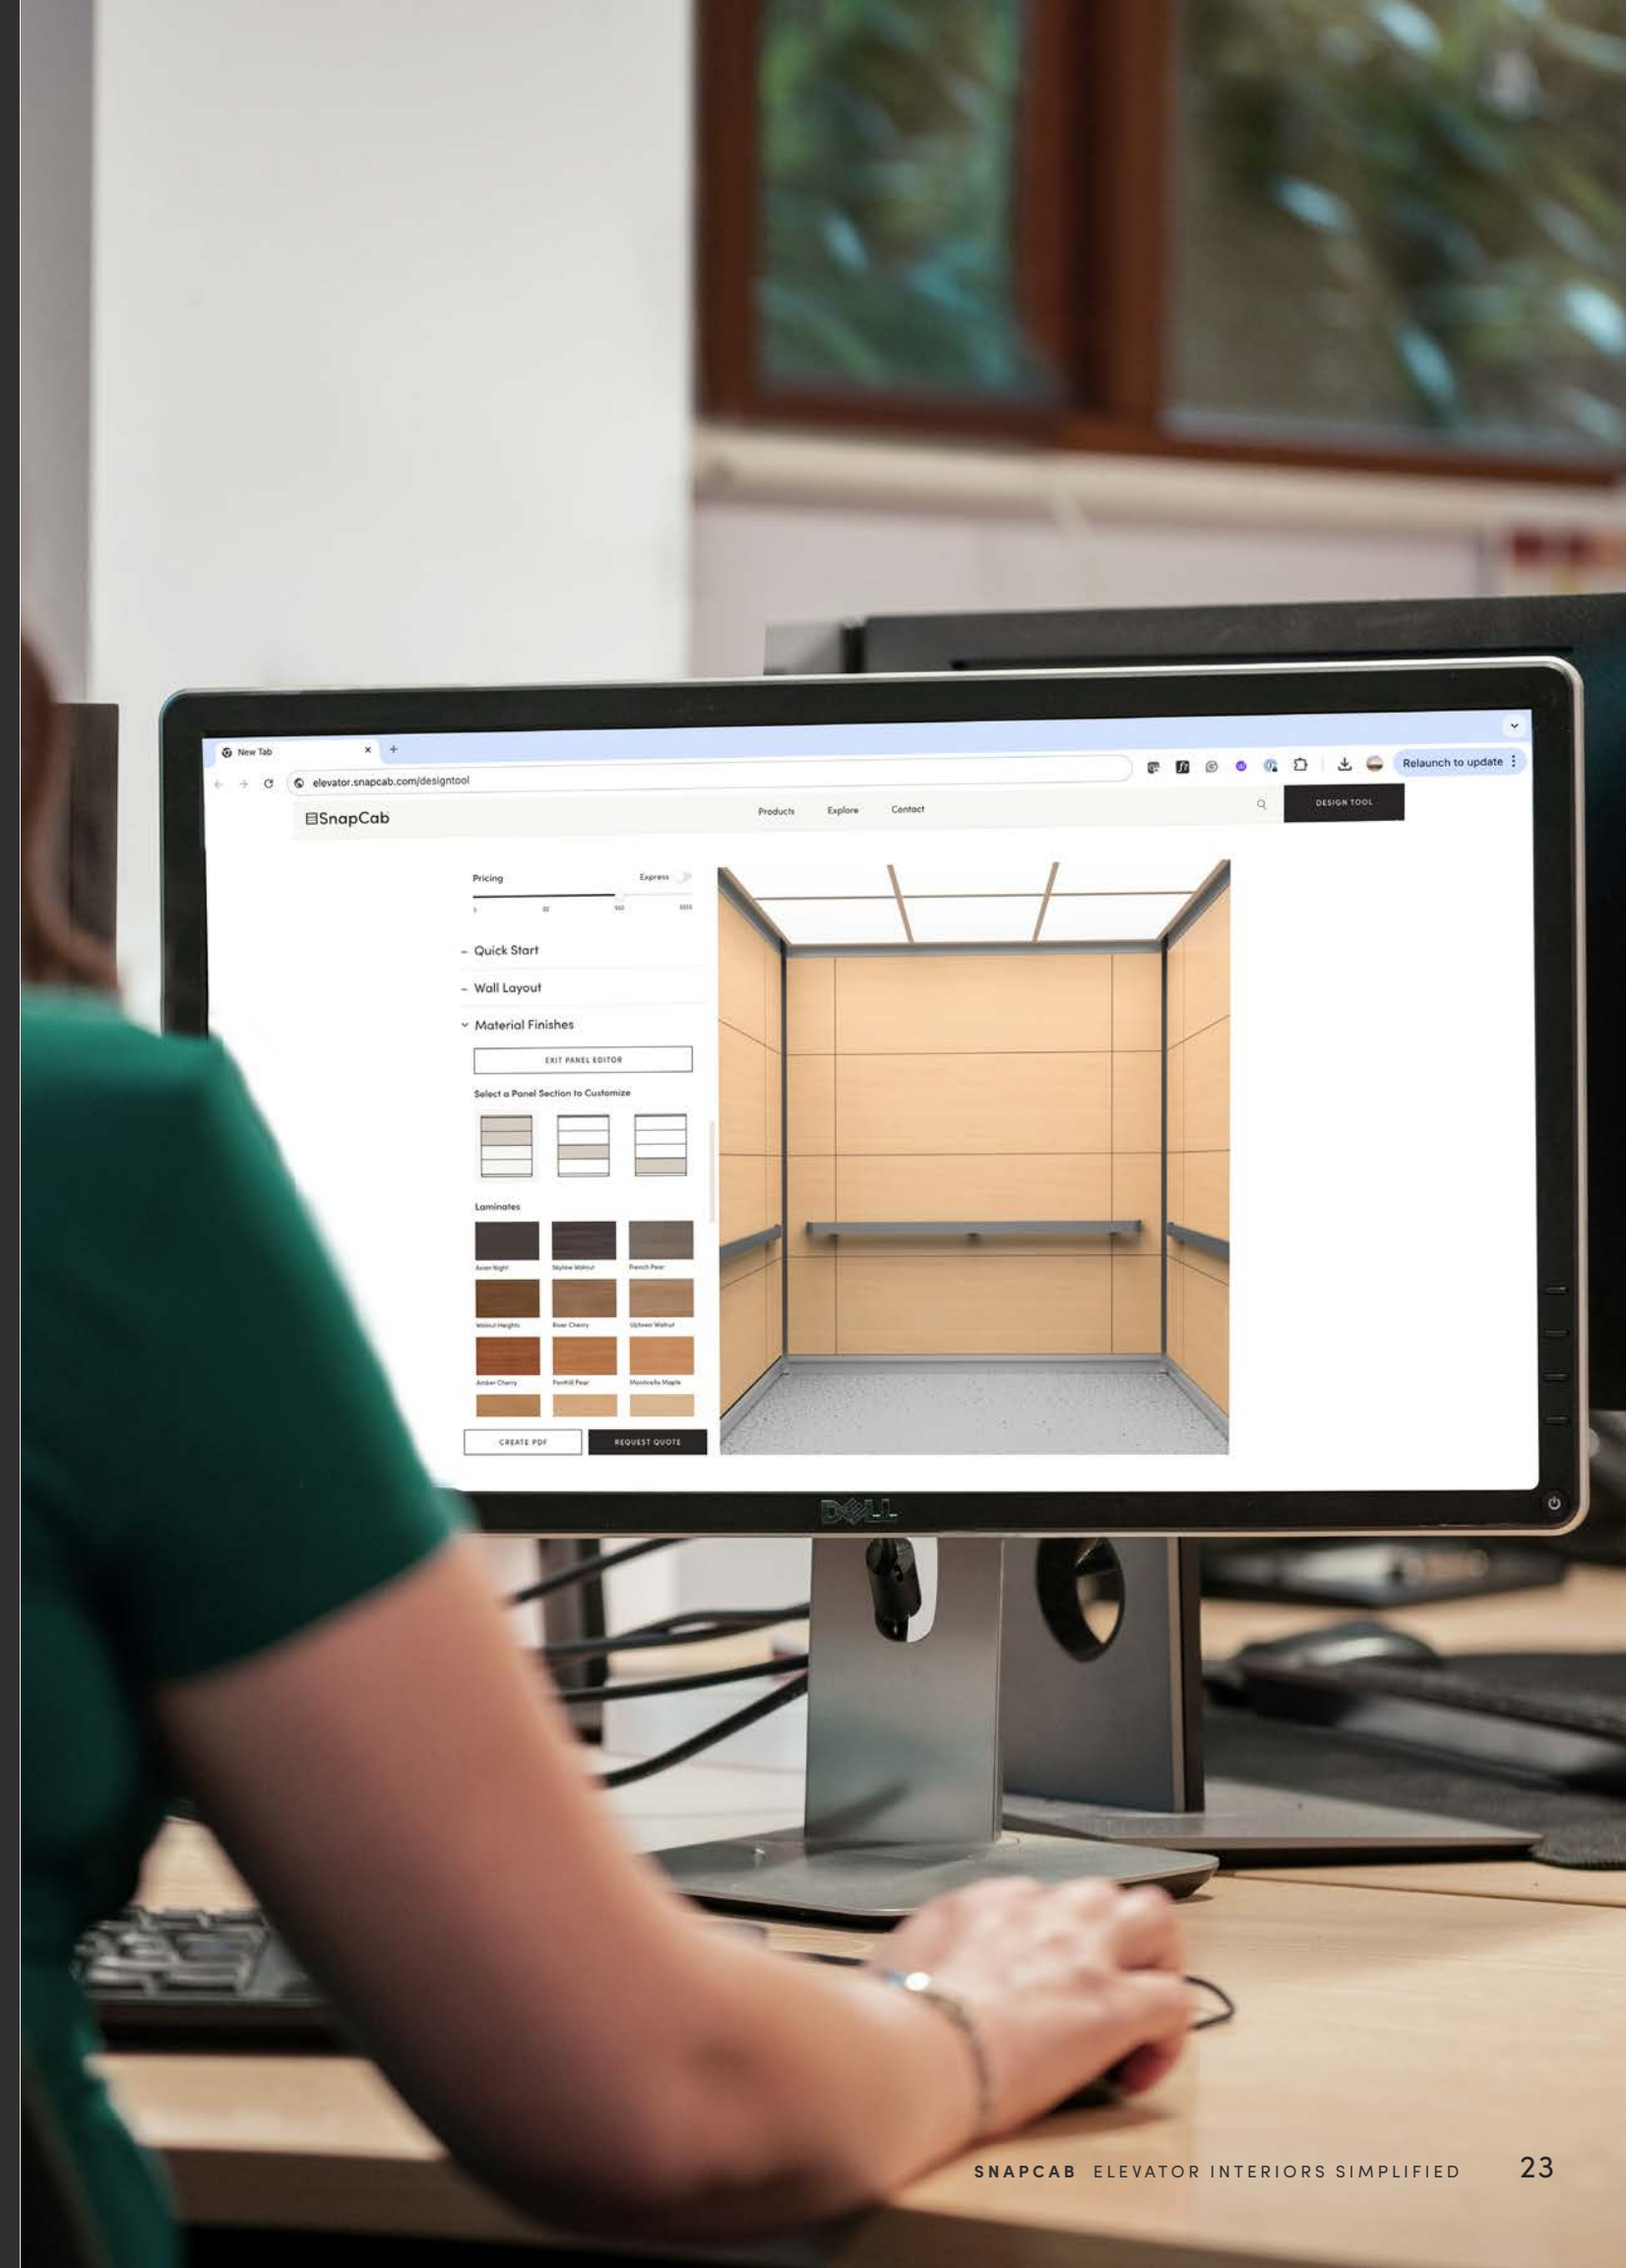

- ✓ **FSC Certification:** We use Forest Stewardship Council (FSC) certified materials to ensure responsible forestry practices and eco-friendly wood products.
- ✓ **GREENGUARD Gold Certification:** Our products feature GREENGUARD Gold certified adhesives, ensuring low chemical emissions and improved indoor air quality.
- ✓ **CARB Phase 2 Compliance:** SnapCab meets CARB Phase 2 standards, reducing formaldehyde emissions and enhancing product safety.
- ✓ **Eco-Certified Products:** We ensure quality and safety from the start with eco-certified materials and processes.

SU-23

Layer 2 in textured stainless steel (5WL), layers 3-5 in Wilsonart® Laminate (Fonthill Pear, matte); 2" Flat Bar handrail; Island ceiling in satin stainless steel

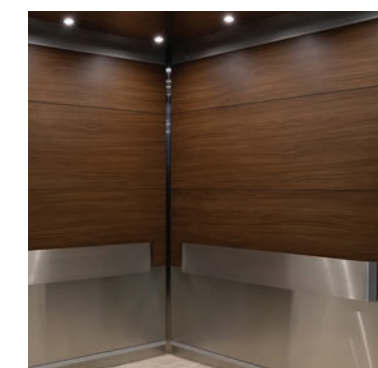

SU-25

Layer 2 in textured stainless steel (5WL), layers 3-5 in Wilsonart® Laminate (Park Elm, softgrain); 2" Flat Bar handrails; Frame ceiling (translucent)

SU-91

Layer 2 in satin stainless steel, layers 3-5 in Wilsonart® Laminate (Walnut Heights, softgrain); 8" Flat Bar handrails; Island ceiling in satin stainless steel

Apex I

This model is available in many laminate and textured metal finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

AP-48

Layer 2 in textured stainless (5WL), layer 3 in Wilsonart® Laminat (North Sea, matte), layers 4-6 in Wilsonart® Laminat (Tangerine, matte); 2" Flat Bar handrail; Aurora ceiling in satin stainless steel

AP-81

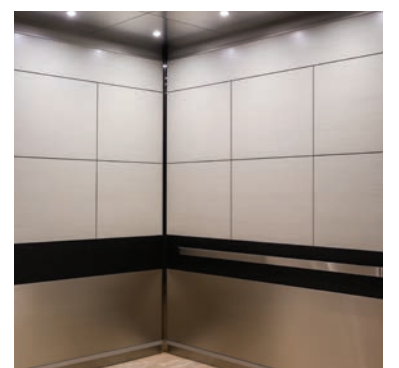

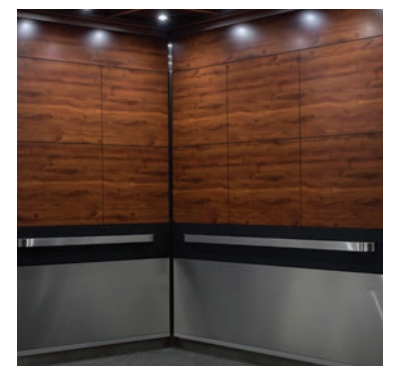

Layer 2 in textured stainless steel (5WL), layers 3-6 in Wilsonart® Laminat (Boardwalk Oak, fine velvet texture); 1.5" Round handrail; Frame ceiling (translucent)

AP-45

Layer 2 in satin stainless steel, layer 3 in Wilsonart® Laminat (Black, matte), layers 4-6 in Wilsonart® Laminat (Windsor Mahogany, finegrain); 2" Flat Bar handrails; Modular ceiling in Wilsonart® Laminat (Black, high gloss)

AP-66

Layer 2 in textured stainless steel (5WL), layer 3 in Wilsonart® Laminat (Black, matte), layers 4-6 in Wilsonart® Laminat (Vapor Strandz, linearity); 2" Flat Bar handrail; Island ceiling in satin stainless steel

SI-02

Wood Veneer Model

Layers 2-5 in wood veneer
(Walnut Groove); 2" Flat Bar handrail;
Island ceiling in satin stainless steel

Sierra I

This model is available in many laminate finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

Edge II

This model is available in many laminate finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

ED-40

Layers 2-5 back wall in Wilsonart® Laminate (Vapor Strandz, linearity), layers 2-5 side walls and rear wall accents in Wilsonart® Laminate (Cosmic Strandz, linearity); 2" Flat Bar handrail; Frame ceiling (translucent)

ED-78

Layers 2-5 back wall in Wilsonart® Laminate (Madagascar, high gloss), layers 2-5 side walls and rear wall accents in Wilsonart® Laminate (Biltmore Cherry, textured gloss); 1.5" Round handrails; Economy ceiling (translucent)

Apex II

This model is available in many laminate and textured metal finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

AP-10
Layer 2 in textured stainless steel (5WL), layer 3 in satin stainless steel, layers 4-6 in Wilsonart® Laminare (Biltmore Cherry, textured gloss); 2" Flat Bar handrail; Frame ceiling (translucent)

AP-81
Layer 2 in textured stainless steel (5WL), layers 3-6 in Wilsonart® Laminare (Boardwalk Oak, fine velvet texture); 1.5" Round handrail; Frame ceiling (translucent)

AP-45
Layer 2 in satin stainless steel, layer 3 in Wilsonart® Laminare (Black, matte), layers 4-6 in Wilsonart® Laminare (Windsor Mahogany, finegrain); 2" Flat Bar handrails; Modular ceiling in Wilsonart® Laminare (Black, high gloss)

AP-66
Layer 2 in textured stainless steel (5WL), layer 3 in Wilsonart® Laminare (Black, matte), layers 4-6 in Wilsonart® Laminare (Vapor Strandz, linearity); 2" Flat Bar handrail; Island ceiling in satin stainless steel

Summit II

This model is available in many laminate and metal finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

SU-99

Layers 2 & 3 in satin stainless steel, layers 4 & 5 in Wilsonart® Laminate (River Cherry, fine velvet); 2" Flat Bar handrails, 8" Flat Bar bumpers; Modular ceiling in Wilsonart Laminate (Black, high gloss)

SU-71

Layers 2 & 3 in satin stainless steel, layers 4 & 5 in Wilsonart® Laminate (Biltmore Cherry, textured gloss); 4" Flat Bar handrails, 4" Flat Bar bumpers; Frame ceiling (translucent)

Tundra II

This model is available in many laminate finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

TU-30

Layers 2, 4 & 6 in Wilsonart® Laminate (Satin Stainless, linearity), layer 3 and accents in Wilsonart® Laminate (Asian Night, linearity), layer 5 in Wilsonart® Laminate (Vapor Strandz, linearity); 2" Flat Bar handrail; Island ceiling in satin stainless steel

IN-20

Layers 2-5 in textured stainless steel (5WL);
2" Flat Bar handrail; 4" Flat Bar bumper;
Island ceiling in satin stainless steel

Industrial I

This model is available in many textured metal finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

Radiant

This model is available in many laminate finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

RA-73

Layers 2-5 back wall in Corning® Gorilla® Glass (Brilliant White), layers 2-5 side walls and back wall accents in Wilsonart® Laminate (Phantom Charcoal, gloss); 1.5" Round handrails; Island ceiling in satin stainless steel

RA-21

Layers 2-5 back wall in Corning® Gorilla® Glass (Brilliant White), layers 2-5 side walls and back wall accents in Wilsonart® Laminate (Phantom Ecru, gloss); 2" Flat Bar handrails; Frame ceiling (translucent)

VU-36

Layers 2-5 in Wilsonart® Laminate (Studio Teak, linearity), accents in Corning® Gorilla® Glass (Brilliant White); 2" Rectangle handrails; Island ceiling in satin stainless steel

Vibrant III

This model is available in many laminate finish and glass options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

Pure

This model is available in many laminate finish and glass options.

Choose from a variety of different handrails designs.
See page 98 for more options.

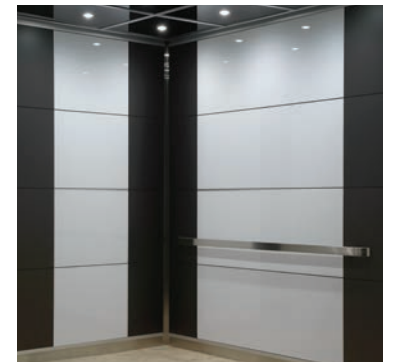

All models can switch to a different ceiling. See page 96 for more options.

PR-11

Layers 2-5 in Corning® Gorilla® Glass (Brilliant White), and accents in Wilsonart® Laminate (Designer White, matte); 2" Flat Bar handrail; Modular Ceiling in Gloss White laminate.

PR-42

Layers 2-5 in Corning® Gorilla® Glass (Brilliant White), and accents in Wilsonart® Laminate (Black, matte); 2" Flat Bar handrail; Modular ceiling in Wilsonart® Laminate (Black, high gloss)

PR-93

Layers 2-5 in Corning® Gorilla® Glass (Brilliant White), and accents in Wilsonart® Laminate (Asian Night, linearity); 1.5" Vault handrail; Frame ceiling (translucent)

Brilliant

This model is available in many laminate finish and glass options.

Choose from a variety of different handrails designs.
See page 98 for more options.

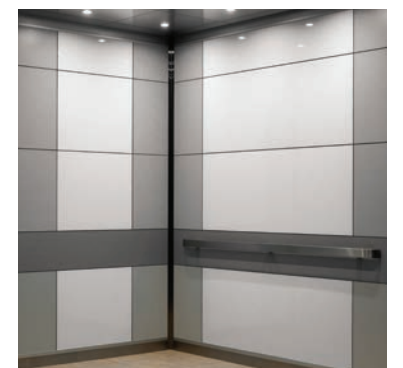

All models can switch to a different ceiling. See page 96 for more options.

BR-23

Layers 2, 4, 5 & 6 in Corning® Gorilla® Glass (Sky Blue), layer 3 in Wilsonart® Laminate (Satin Stainless, matte), accents in Wilsonart® Laminate (Pinball, fine velvet); 2" Flat Bar handrail; Frame ceiling (translucent)

BR-12

Layers 2, 4, 5 & 6 in Corning® Gorilla® Glass (Brilliant White), layer 3 in Wilsonart® Laminate (Satin Stainless, linearity), accents in Wilsonart® Laminate (Pinball, fine velvet); 2" Flat Bar handrail; Island ceiling in satin stainless steel

Custom Models

Corporate I

This model is available in many laminate finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

CO-39

Layers 2 & 4 in Wilsonart® Laminate (Walnut Heights, softgrain), layer 3 in satin stainless steel; 1.5" Round handrails; Modular ceiling in Wilsonart® Laminate (Black, high gloss)

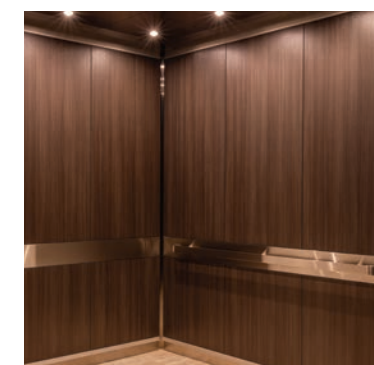

CO-62

Layer 2 in Wilsonart® Laminate (Kensington Maple, matte), layer 3 in satin stainless steel, layer 4 in Wilsonart® Laminate (Casual Linen, fine velvet texture); 1.5" Round handrail; Frame ceiling (translucent)

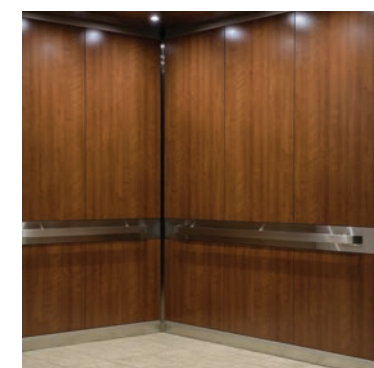

CO-77

Layers 2 & 4 in Wilsonart® Laminate (Skyline Walnut, softgrain), layer 3 in satin stainless steel; 2" Flat Bar handrail; Island ceiling in satin stainless steel

CO-55

Layers 2 & 4 in Wilsonart® Laminate (Amber Cherry, finegrain), layer 3 in satin stainless steel; 2" Flat Bar handrails; Island ceiling in satin stainless steel

Harmony II

This model is available in many laminate and textured metal finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

HA-46

Layer 2 in textured stainless steel (1CS), layer 3 in satin stainless steel, layer 4 in Wilsonart® Laminate (Huntington Maple, fine velvet); 2" Flat Bar handrail; Island ceiling in satin stainless steel

HA-77

Layer 2 in textured stainless steel (2WL), layer 3 in satin stainless steel, layer 4 in Wilsonart® Laminate (Monticello Maple, fine velvet); 2" Flat Bar handrail; Modular ceiling in Wilsonart® Laminate (Black, high gloss)

HA-69

Layer 2 in textured stainless steel (5WL), layer 3 in satin stainless steel, layer 4 in Wilsonart® Laminate (Park Elm, softgrain); 2" Flat Bar handrails; 4" Flat Bar bumpers; Frame ceiling (translucent)

HA-15

Layer 2 in textured stainless steel (5WL), layer 3 in satin stainless steel, layer 4 in Wilsonart® Laminate (Skyline Walnut, softgrain); 2" Flat Bar handrail; Island ceiling in satin stainless steel

Corporate II

This model is available in many laminate finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

Laminate (Walnut Heights, softgrain), layer 3 in
satin stainless steel, layer 4 back wall in clear
safety mirror; 2" Flat bar handrails; Island ceiling
in satin stainless steel

CO-33

Layer 2 & layer 4 side walls in Wilsonart®
Laminate (Cosmic Strandz, linearity), layer
3 in satin stainless steel, layer 4 back wall
in clear safety mirror; 1.5" Vault handrail;
Island ceiling in satin stainless steel

AR-06

Wood Veneer Model

Layers 2 & 4 in wood veneer (Teak Groove), layer 3 in satin stainless steel; 2" Flat Bar handrail; Island ceiling in satin stainless steel

Aria II

This model is available in many wood veneer finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

Resilient

This model is available in many laminate finish and glass options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

RE-08

Layers 2 & 4 in Wilsonart® Laminate (Kensington Maple, matte), layer 3 in Wilsonart® Laminate (Black, matte), accents in Corning® Gorilla® Glass (Brilliant White); 1.5" Vault handrail; Island ceiling in satin stainless steel

Imperial I

This model is available in many textured metal finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

IM-96

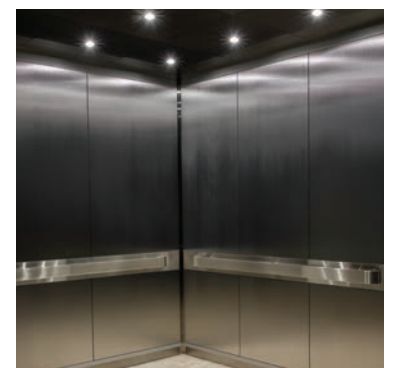

Layer 2 in colored stainless steel (T22 Granex Onyx Black), layer 3 in satin stainless steel, layer 4 in colored stainless steel (T22 Granex Quartz Bronze); 1.5" Round handrails; Aurora ceiling in satin stainless steel

IM-43

Layers 2 & 4 in textured stainless steel (DuoTex 1SL-Sandtux), layer 3 in satin stainless steel; 1.5" Vault handrail; Modular ceiling in Wilsonart® Laminate (Black, high gloss)

IM-72

Layers 2 & 4 in textured stainless steel (5WL), layer 3 in satin stainless steel; 3" Flat Bar handrails; Island ceiling in satin stainless steel

Fusion

This model is available in many laminate finish and glass options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

FS-48

Layers 2 & 4 back wall in Corning® Gorilla® Glass (Carrara Marble, image), layers 2 & 4 side walls in Wilsonart® Laminare (Park Elm, softgrain), layer 3 in satin stainless steel, accents in Wilsonart® Laminare (White, matte); 1.5" Round handrails; Frame ceiling (translucent)

FS-94

Layers 2 & 4 back wall in Corning® Gorilla® Glass (Brilliant White), layers 2 & 4 side walls in Wilsonart® Laminare (Designer White, matte), layer 3 in satin stainless steel, accents in Wilsonart® Laminare (Asian Night, linearity); Vault handrails; Island ceiling in satin stainless steel

HE-78

Layers 2-4 in Wilsonart® Laminate
(Amber Cherry, finegrain); 1.5" Round handrail;
Island ceiling in satin stainless steel

Heritage I

This model is available in many laminate finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

Heritage II

This model is available in many laminate finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

HE-19

Layers 2-6 in Wilsonart® Laminate
(Amber Cherry, finegrain); 2" Flat Bar handrail;
Island ceiling in satin stainless steel

Clarity I

This model is available in many textured metal finish and glass options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

CR-49

Layer 2 in Corning® Gorilla® Glass (Winter Green), layers 3 & 6 in textured stainless steel (Sandtex), layers 4 & 5 in Corning® Gorilla® Glass (Sandy Peach), accents in textured stainless steel (3SQ); 1.5" Round handrails; Island ceiling in satin stainless steel

CR-83

Layers 2 & 4 in Corning® Gorilla® Glass (Brilliant White), layer 3 in satin stainless steel, accents in textured stainless steel (3SQ); 1.5" Round handrails; Island ceiling in satin stainless steel

Prism

This model is available in many textured metal finish and glass options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

PM-76

Layers 3-6 in Corning® Gorilla® Glass (Brilliant White), layer 2 in textured stainless steel (Sandtex), accent 1 in Corning® Gorilla® Glass (Dark Blue), accent 2 in satin stainless steel; 1.5" Flat Bar handrails; Island ceiling in satin stainless steel

Sahara I

This model is available in many textured metal finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

SA-33

Layers 2 & 4 in GageCarve® (Organic, nickel), layer 3 in satin stainless steel; inlay in black anodized aluminum; 1.5" Vault handrails; Island ceiling in satin stainless steel

Sahara II

This model is available in many textured metal finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

SA-49

Layers 2 & 4 in GageCarve® (Rough Cut II, nickel), layer 3 in satin stainless steel, accents in textured stainless steel (Sandtex); inlay in black anodized aluminum; 1.5" Vault handrail; Island ceiling in satin stainless steel

Milano I

This model is available in many stone finish options.

Choose from a variety of different handrails designs.
See page 98 for more options.

All models can switch to a different ceiling. See page 96 for more options.

MI-68

Layer 2 in natural stone (Concrete Caesarstone),
layer 3 in satin stainless steel, layers 4, 5 & 6 in
natural stone (White Carrara); 2" Flat Bar handrail;
Island ceiling in satin stainless steel

OVERHEAD OPTIONS

Ceilings

Our high-quality ceilings are manufactured to provide beauty and durability.

Our frames are constructed of sturdy 1.5" extruded "T" aluminum. All ceilings are made with access to the canopy exit hatch and allow for ventilation around the perimeter. Battery backup is an optional upgrade on all ceilings.

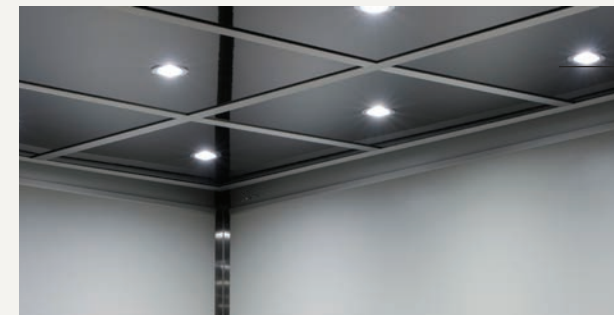

Aurora

Extraordinary and energy-efficient edge-lit panel ceiling shown with LED perimeter lighting, finished in stainless steel. Includes a tight seam at the exit hatch and along the center where the two ceiling halves meet.

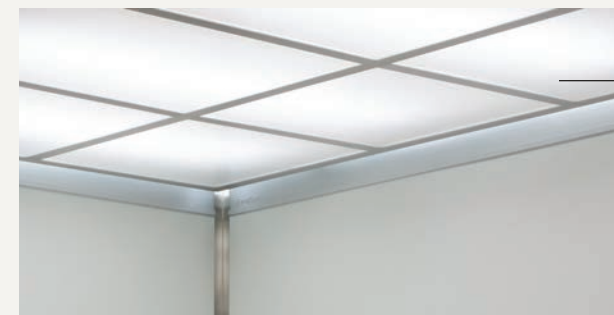

Island

Beautiful and energy-efficient panel ceiling divided into 6 sections (9 on larger elevators).

Modular

Lightweight and energy-efficient aluminum frame with drop-in panels, divided into 6 sections (9 on larger elevators).

Frame

Lightweight and energy-efficient aluminum frame with translucent diffusers, divided into 6 sections (9 on larger elevators).

Economy

Lightweight and energy-efficient aluminum frame with translucent diffusers, divided into 3 sections (4 or 5 on larger elevators).

SAFETY AND PROTECTION RAILS

Handrails & Bumpers

Our pre-installed handrails and bumpers are mounted during the manufacturing process, making them the most secure in the industry.

Materials include stainless steel and bronze, finished in satin or mirror to complement the wall panel materials you have selected for your interior. Handrails and bumpers can be specified for the back and/or side walls.

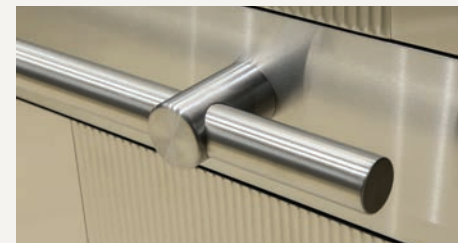

Flat Bar

Available in 1.5", 2", 4", 6", or 8"

Round

Available in 1.5" or 2"

Vault

Available in 1.5"

Angle

Available in 1.5"

Fluid

Available in 1.5"

Oval

Available in 1.9"

Square

Available in 1.5"

Rectangle

Available in 2"

PREMIUM GLASS

Corning® Gorilla® Glass

Our modular system allows you to freely design unique interiors while making them simple to customize.

Our collaboration with Corning® Gorilla® Glass ensures that our customers receive beautiful and high-quality products. The glass panels are thin, lightweight, and damage-resistant.

QUALITY GUARANTEED

3-Year Warranty

The SnapCab limited warranty applies to any SnapCab manufactured product and remains in full force and effect for three years from shipment.

We warrant every SnapCab product to be free of manufacturing defects. This warranty is limited to replacement or repair and does not include labor to remove or replace any product.

Should you have a warranty issue, SnapCab will repair or replace all valid warranty items. Exclusions to this warranty include, but are not limited to, normal wear such as scratches, dents, and dings.
